SCHOOL MANAGEMENT SYSTEM · BY ILLUSIO

PRODUCT BROCHURE · 2026

One platform to run your entire school.

Scholr is a web-first, privacy-first School Management System for a single school in India — admissions to analytics, in one source of truth. Built for administrators, teachers, students and parents.

15+

INTEGRATED MODULES

4

ROLE-BASED PORTALS

99.9%

TARGET UPTIME

DPDP

2023 COMPLIANT

THE CHALLENGE

Schools run on disconnected tools.

Data silos

Student info, grades and fees live in separate spreadsheets and apps — no single source of truth.

Manual, error-prone work

Paper attendance, hand-calculated report cards and manual fee reconciliation waste staff time.

Poor parent visibility

Parents chase phone calls and office visits to learn about grades, attendance and fees.

Compliance risk

India's DPDP Act 2023 requires verifiable parental consent and strict handling of children's data.

THE SOLUTION

Scholr brings it all together.

A modern, integrated platform that automates high-volume workflows, gives every stakeholder self-service access, and is private and compliant from day one — so staff spend less time on admin and more time on students.

- One centralised student record (SIS) as the backbone of everything
- Automated attendance, grading and fee collection
- Self-service portals for admins, teachers, students and parents
- Actionable analytics that flag at-risk students 6–8 weeks earlier

Everyone gets exactly what they need.

Role-based access means each person sees only the modules relevant to them — enforced at the service and data layers, least-privilege by default.

Administrator

Oversight dashboards, configuration, user & role management, and every module school-wide.

Teacher

Take attendance, manage the gradebook, post assignments and message parents.

Student

Timetable, homework, grades, attendance, study material and announcements.

Parent

Child's grades, attendance and fees (pay online), live bus tracking and teacher chat.

WEB-FIRST & RESPONSIVE

Works beautifully on a parent's phone browser.

No app install required. WhatsApp is the primary parent channel, with SMS and email built in.

THE MODULES

15+ modules, one login.

Student Records (SIS)

Central database of every student — the backbone of the platform.

Admissions

Online applications and the funnel through to enrollment.

Attendance

Roll-call, absence alerts, reports and a leave workflow.

Gradebook & Exams

CBSE grades, CCE report cards and marksheets.

Assignments (LMS)

Homework and submissions, synced with Google Classroom.

Timetable

Class & teacher schedules with clash detection.

Fees

Online payment via Razorpay — UPI, cards, net banking.

Library

Catalog, issue / return and member history.

Transport

Routes, occupancy and live GPS bus tracking.

Hostel

Room allocation, occupancy and mess management.

HR & Payroll

Staff records, attendance and monthly payroll.

Communication

Announcements & chat over WhatsApp, SMS and email.

Study Material

Notes, slides, worksheets and video lessons.

Analytics & AI

Trends and AI-assisted early intervention.

Settings & RBAC

School config, users, branding and integrations.

Highlights.

Online fees with Razorpay

Invoices, installments and digital receipts. Parents pay in seconds via UPI, cards, net banking or wallets — with automated WhatsApp/SMS reminders.

Live bus tracking

Parents follow their child's bus in real time on a live GPS map, with route timeline, ETA to their stop and one-tap driver contact.

Analytics & AI

Dashboards, performance trends and AI-assisted early intervention that flags at-risk students — privacy-first, with no profiling.

DPDP-compliant by design

Verifiable parental consent, data localization in India, full audit logging and least-privilege access — built in, not bolted on.

Your brand, your colours

Upload your school logo and the platform automatically adopts its colours across the whole app — a white-labelled experience.

ROLLOUT

A phased path to launch.

PHASE 0

Foundation

Auth, RBAC, base schema, CI/CD

PHASE 1

MVP

SIS, Attendance, Gradebook, Fees, Communication + portals

PHASE 2

Expansion

Timetable, Library, Transport, LMS, analytics

PHASE 3

Advanced

HR, Hostel, native apps, AI/predictive

Scholr

SCHOOL MANAGEMENT SYSTEM · BY ILLUSIO

Ready to modernise your school?

Reduce administrative overhead, improve outcomes through early intervention, and strengthen the school–parent relationship — on one reliable, privacy-first platform.
